

International Journal of Pharma Medicine and Biological Sciences

CONTENTS

Volume 12, Number 4, October 2023

- Bioinformatics-Based Analysis of Circulating Tumor Cells: A Methodological Overview of Personalized Cancer Treatment.....48
*Volkan Uslan, Ludmilla Thomé Domingos Chinen, and Huseyin Seker**
- Study on FSHD2 Myotube Nucleus Disease Based on Mononuclear RNA-seq Identification.....54
Zihan Liao and Virgia Wang*
- Computational Identification of Candidate Genes Involved in the Inflammation Pathway of AGE-RAGE Signaling in Lung Cancer Invasiveness61
Grace Wang and Yongsheng Bai*
- A Case of Radio Frequency Micro-Needling Combined with Carbon Dioxide Fractional Laser for the Treatment of Severe Post-Acne Scarring70
Li Tang, Lan Ge, Yan Xiao, and Yaoying Li*
